Program /Activity Type: Alumina meet

Event Theme: Guidance/Mentorship

Duration of the Event: 1 hour

Start Date : 25/11/23 ,19:00

End Date: 25/11/23 ,20:00

Event Name: Alumina Connect

Conduction Mode: Online

Event Incharge : Aditi Ramugade

Objective of the Event:

The Alumina Meet event serves as a dynamic platform fostering knowledge exchange among professionals in the alumina industry, promoting the sharing of best practices, innovative approaches, and emerging trends. It features a Technology Showcase, providing a forum for the exhibition and discussion of cutting-edge technologies in alumina production. Additionally, the event addresses challenges faced by industry professionals at their time of preparation , offering insights to students for better problem-solving in their future endeavors.

Introduction:

The Alumina Meet, organized by F.E.T.S. committee, served as an illuminating platform bringing together accomplished alumni from the EXTC department who have forged distinctive career paths in both technical and non-technical domains. The event aimed to provide valuable insights into the professional journeys of these esteemed individuals, offering students a firsthand glimpse into the challenges and triumphs encountered in their pursuit of success. The diverse panel of speakers, featuring Gaurav Panchal, Maitre Vora, Siddharth Mohanty, Rani Tibdewal, and Arohi Shinde, shared their experiences, emphasizing the significance of effective communication, meticulous interview preparation, problem-solving prowess, and the importance of choosing the right company. As the event unfolded, it became evident that these alumni from the EXTC department had gone above and beyond, taking extra initiatives to secure positions in both technical and non-technical roles.

Event Highlights:

The event commenced with Gaurav Panchal, a former tech analyst at MSCI turned startup entrepreneur, stressing the pivotal role of communication and underscoring the seriousness of the interview process in landing coveted positions. Maitre Vora, an analyst at Deutsche Bank with a background as an SDE intern at Amazon, shared his journey and valuable insights into the selection process for Amazon interns. Siddharth Mohanty, currently an SDE at Phoneme, shed light on the importance of strong problem-solving skills, with a notable mention of Leetcode scores in CVs. His perspective on ChatGPT highlighted the increasing relevance of AI in the learning landscape. Rani Tibdewal, now a Product Marketing Associate at Uni Cards, drew attention to the critical decision of choosing a company before even entering the placement process. Arohi Shinde, a Junior Analyst at JPMC, generously shared her preparation resources for a data analyst role.

The event concluded on an interactive note, with a Q&A session where the alumni responded to queries from attendees. The engagement was vibrant, and the alumni's candid responses provided further depth to the insights shared during the event. Hosted by Aditi, the Q&A session added an enriching dimension to the Alumina Meet, concluding the event on a highly satisfactory note.

Conclusion:

The Alumina Meet was attended by 86 students of diverse academic year and encapsulated a wealth of knowledge, guidance, and inspiration for students aspiring to carve their professional paths. The diverse range of speakers illuminated the multifaceted aspects of career development, encompassing communication skills, interview preparedness, problem-solving acumen, and the nuanced process of choosing the right career path. The commitment of our alumni to both technical and non-technical roles exemplifies the EXTC department's resilience and adaptability. The success stories shared and the engaging Q&A session underscored the value of such events in fostering a strong alumni-student connect. As the event concluded, attendees left with newfound motivation and a clearer understanding of the strategies and insights necessary to navigate the complex landscape of career building. The Alumina Meet stands as a testament to the commitment of our alumni and the ongoing support they provide to the next generation of professionals emerging from the EXTC department.
